Improve My English Vocabulary is designed for learners at all levels who want to improve their range and control of new vocabulary. The series is comprised of courses to practice general vocabulary, and 21 specialised subject areas, and will help students master hundreds of new words in context. The course offers a flexible, effective way to increase English vocabulary in just 15 minutes a day.

Improve My English Vocabulary uses adaptive learning technology to help students focus on words they don't know, and tracks their knowledge of meaning, written form and spoken form. A spaced repetition learning system is used to introduce new vocabulary and provide repeated and varied practice of words in the study cycle ensuring long-term retention. Each course is designed to allow

students to learn at their own pace. Lesson blocks can be started and interrupted at any point, and students can then pick up where they left off.

Improve My English Vocabulary is an ideal supplement to any learning programme and is suitable for private language school, corporate and academic environments. Vocabulary for General English is recommended to all learners who need to boost their overall vocabulary range alongside a general English course of study. Students who require more focused list coverage can choose from up to 21 specialist-subject areas to match their needs in a business context, or to their discipline.

Improve My English Vocabulary offers:

- A level check to assess ability and ensure each learner is working at the correct level (Vocabulary for General English only).
- A unique, adaptive learning system that introduces new words, repeats and recycles items in training, and banks vocabulary that has been mastered.
- A wide range of exercise types to practice meaning, spelling and pronunciation of new words.
- A substantial choice of content to support vocabulary development in a general English, business or academic learning environment.
- End-of-lesson tests to measure progress.
